

CanalPro®

Endo-Ice® Green

the diagnostic spray for the 21st century

 **COLTENE**

CanalPro® Endo-Ice® Green

low global warming refrigerant spray (GWP<1)

With a significantly shorter atmospheric lifetime than any other pulp testing spray currently on the market, Endo-Ice Green offers dentists the most environmentally-friendly, effective pulp vitality testing spray available today.

Global Warming Potential is a measure of the global warming impacts of different gases. The higher the GWP value, the more that particular gas warms the earth when compared to carbon dioxide.

GWP* Comparison

Endo-Ice Green < 1

Carbon Dioxide = 1

Other cold sprays/HFCs ≥ 1360+

*The higher the GWP value, the more that particular gas warms the Earth when compared to CO2
