

DIATECH Conversion List

Important Information **EN**

We are delighted to inform our valued clients that COLTENE has made significant improvements regarding the packaging of our DIATECH Diamonds:

- User-friendly blister packaging format
- Securely sealed, preserving integrity of the product
- Equipped with an easy peel feature

Additionally, we would like to notify you about certain changes in ring colors and grit sizes to align with the ISO 7711 standard (see table below):

- The black “super coarse” (MLX) has been reclassified as green “coarse” (C)
- The blue “medium” (ML) has been transformed to blue “medium” (M)
- The yellow “extra fine” (XF) has been replaced by yellow “extra fine” (EF)

Please note that there have been changes to the item numbers. For your reference, we have included a conversion table that lists the old and new item numbers. This conversion list only includes new items, that have an equivalent old item. However, the new portfolio also includes completely new items, that are not shown in this list. You can access the PDF version of this table through the provided link:
